

VEHICLE MOUNT ARROW BOARD

15 AND 25 LAMP SERIES

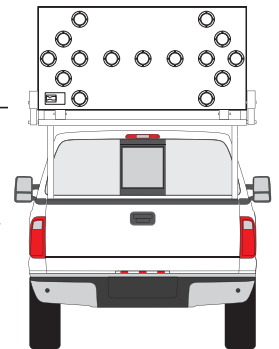

The K&K Arrow Board with Optional Low Profile Mount features an aluminum display with a flat black powder coat finish to give a smooth look and prevent rust. Our standard arrow boards feature a folding frame activated using a 12V linear actuator with built-in limit switches and 6" stroke. The arrow board includes an auto raise/lower function when the unit is powered on or off.

The truck mounted arrow board comes standard with a power cable that integrates into the vehicles existing power system. All K&K Arrow Boards have a built-in controller on the display face. Optional wireless and wired remotes are available. Go truly wireless with **TRUWIRELESS**. TruWireless eliminates all wires connecting the arrow board to the vehicle. Simply **Mount & Go**. Request the TruWireless option on your next order.

FEATURES

- ▶ Arrow Board Meets MUTCD standards
- ▶ Photocell for Auto Dimming
